

# BLACKTIP ONSHORE POWER PLANT

**LOCATION/SITE**

Wadeye, NT

**CLIENT**

ENI Australia

**DATE**

2008

**DURATION**

38 Weeks

**WADEYE, NORTHERN TERRITORY****PROJECT OVERVIEW**

To deliver and install an onshore gas power generation plant in a remote location.

**OUR INVOLVEMENT**

Eneraque designed, manufactured, installed, and commissioned this power station for our client to a exacting specification.

The 3 x 1MWe Waukesha gas generators are generating at 690V.

The packages were built to a very high standard including 316 stainless steel componentry, instruments and gas train enclosure. The packages are rated for 45°C ambient operating conditions.

**OUTCOME/BENEFITS**

A high quality project delivered. Designed and built to meet the demands of the site with maximum uptime and availability. Delivered on time and on budget.

**POWER PLANT SPECIFICATIONS**

- 3 x VHP 7044 GSI Waukesha gas engines
- 1 x MTU diesel generator
- Control system
